Data Visualization with Power BI and Tableau

Practical – I

Roll No.:T006	Name:Nandini Chaudhary
Class:TYIT	Batch:
Date of Assignment:24-07-2026	Date/Time of Submission:24-07-2026

Part C – Curiosity Question

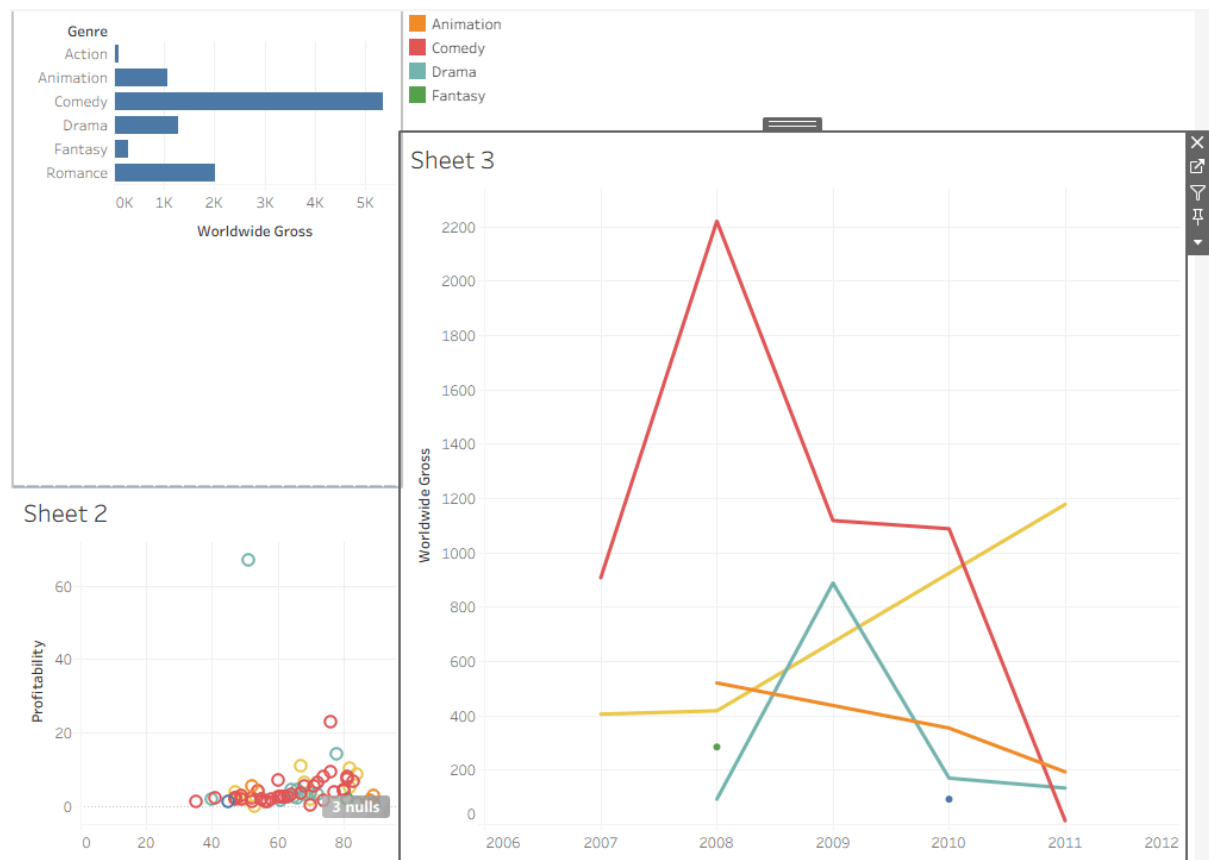

Curiosity Question

Question:

Using a dataset of your choice (CSV format), create an interactive Tableau dashboard that effectively presents key insights from the data.

Submission:

- Tableau Workbook (.twb or .twbx)
- Dataset (.csv)
- Screenshot of the completed dashboard

- A short report containing the observations.

Observation 1

Comedy and Romance genres contribute a significant share of the total worldwide gross compared to some other genres.

Observation 2

Movies with higher audience scores do not always have the highest profitability, indicating that commercial success is influenced by multiple factors.

Observation 3

Certain films achieve exceptionally high profitability despite moderate worldwide gross, suggesting they had relatively low production costs.

Observation 4

Worldwide gross varies across different years, showing fluctuations in movie market performance over time.

Observation 5

Filtering by genre allows easy comparison of profitability, audience ratings, and worldwide gross within specific movie categories.
